Specific Rules and Qualifications

Rebates are available for control devices which are either occupancy or moisture sensor based installed on beverage vending machines, glass-front beverage machine coolers or glass-front refrigerated display case doors.

1. The DoorMiser[®] product is currently the only approved controller eligible for the glass-front door case rebate program. The VendingMiser[®] and CoolingMiser[®] products are currently the only approved controllers eligible for the beverage vending and glass-front cooler machine rebate program.

2. Installing a controller on vending machines with perishable products is not allowed.
3. On the documents establishing proof-of-purchase, circle the energy-saving products for which a rebate is requested and attach to the application.

Warranty Information

Rebate qualifications do not imply any representation or warranty of such equipment, design or installation by the cooperative. The cooperative shall not be responsible or liable for any personal injury or property damage caused by this equipment. The cooperative does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall the cooperative be liable for any incidental or consequential damages.

Other Important Program Rules

1. Installation must be complete before funds will be issued for the rebate.
2. The cooperative reserves the right to conduct random inspections of installations.
3. The member is responsible for checking with the cooperative to determine whether funding is available and to verify program parameters.
4. The cooperative retains the right to make adjustments to correct incentive calculations if necessary.
5. Qualifying members must apply for 2012 rebates no later than November 16, 2012.
