

Pole Attachment Data Sheet

Pole Number

Number in Sequence: _____

Backspan Length: _____

Pole Height:

30' 35' 40' 45' 50' 55' 60'

Pole Class:

1 2 3 4 5 6 7

Neutral Attachment Height: _____

At Midspan: _____

In Backspan: _____

What is the lowest electrical equipment or device on pole?

Transformer Capacitor Regulator Recloser Check box if equipment is 3 Phase

Lowest point of Connexus equipment or wire: _____

Street light attachment height (if applicable): _____

Be sure to obtain measurement from equipment above ST-LT also; such as service clevis, drip loop, or bottom of transformer

Existing Communications

1: _____

Attachment Height: _____ At Midspan: _____

2: _____

Attachment Height: _____ At Midspan: _____

Notes:
