## Program Description

The program provides a rebate for commercial members that switch from either a diesel or propane powered forklift to electric, or replace an existing electric forklift with a new electric forklift, or select electric forklifts for new facilities. Qualifying electric forklifts must be operated in a full time business a minimum of 40 hours per week. The program can be used in conjunction with the ETS vehicle rate, but is not required.

Electric forklifts offer lower operating and maintenance costs against competing fuels and improved health and safety conditions particularly with indoor use applications. AC drive electric forklifts do the work of most Class 4 and many Class 5 IC (internal combustion) forklifts. Class 1 electric with solid tires can replace a Class 4 IC used indoors. Class 1 electric with pneumatic tires can replace a Class 5 IC truck used outdoors.

## Specific Rules and Qualifications

1. Documents establishing proof-of-purchase (invoice) must be furnished with the original rebate application.
2. On the documents establishing proof-of-purchase, circle the energy-saving product(s) for which a rebate is requested and attach to the original application. If not indicated on the invoice, please add the number of units installed, manufacturer, model number and capacity.
3. Submit the manufacturer's data sheets with the rebate application.

## Eligible Equipment

1. Electric Forklifts - Classes 1 & 2 (minimum 40 hr. week lift truck operation)
2. Class 3 equipment ineligible for rebate (custom rebate may be considered)

### **Class 1 electric indoor or outdoor forklifts**

36 V, 48 V, or 80 V  
3,000–12,000 lbs. lift capacity

### **Class 2 indoor narrow-aisle trucks**

24 V, 36 V, or 48 V  
3,000–5,500 lbs. lift capacity

### **Class 3 electric hand- or rider-trucks (ineligible)**

12 V and 24 V  
3,500–8,000 lbs. lift capacity

## Warranty Information

Rebate qualifications do not imply any representation or warranty of such equipment, design or installation by Connexus Energy. Connexus Energy shall not be responsible or liable for any personal injury or property damage caused by this equipment. Connexus Energy does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall Connexus Energy be liable for any incidental or consequential damages.

## Rebate Application Process and Program Rules

1. Pre-approval is required for all prescriptive rebates over \$2,500 and ALL custom rebates.
  - Information required for pre-approval includes: detailed project scope, estimated energy savings or additional usage in kWh and kW, manufacturer's specifications, estimated project completion date and estimated equipment costs.
  - If changes to project scope will impact your estimated rebate, please notify Connexus Energy immediately to update your pre-approval.
2. The member is responsible for checking with Connexus Energy, prior to project start, to determine if project qualifies, and to verify availability of funds.
3. Project must comply with all program Specific Rules and Qualifications (varies by rebate type).
4. Installation must be complete before final rebate application and required supporting documentation is submitted to Connexus Energy. Supporting documentation includes:
  - Itemized equipment invoices (detailing line item quantity, price, and model number).
  - Manufacturers' equipment specifications (cut sheets).
5. Rebates are capped at 50% of the invoiced equipment cost or the prescriptive/custom rebate, whichever is less.
6. The maximum annual rebate per member, for all projects, is \$30,000.
7. Rebate checks will be made payable to the Connexus Energy account holder named on the application (not to contractors).
8. Connexus Energy rebates are offered on a first-come, first-paid basis, pending fund availability, and are subject to change. Check website for current application forms.
9. Connexus Energy reserves the right to conduct inspections of all rebated installations.
10. Email completed application packet, along with the account holder's W-9 tax identification form, to [businessaccounts@connexusenergy.com](mailto:businessaccounts@connexusenergy.com), OR mail to Connexus Energy (c/o Business Accounts), 14601 Ramsey Blvd., Ramsey, MN 55303, no later than December 15, 2023.

### Your submitted application **MUST** include:

- Completely filled out and signed rebate application form(s).
- Itemized equipment invoices.
- Equipment specifications (cut sheets).
- Account holder's W-9 tax ID form.
