
SECTION II - ABBREVIATIONS & DEFINITIONS

PART 1 ABBREVIATIONS

Connexus® Energy or Company	Connexus Energy 14601 Ramsey Blvd. Ramsey, MN 55303 Phone: 763-323-2600
HPS	High Pressure Sodium
kV	Kilovolt
kW	Kilowatt
kWh	Kilowatt hour
kVA	Kilovolt Ampere
KVAR	Kilovolt Ampere Reactive
MV	Mercury Vapor
N/A	Not Applicable
PF	Power Factor
GRE	Great River Energy

PART 2 DEFINITIONS

Closed	Rate is still in effect, but not offered to new members.
Effective Date	The date at which the listed rate tariff becomes effective. Bills rendered after this date use the rates as described in a particular tariff.
kWh/kW	Used in General Commercial rate. The kWh in the first energy block are determined by multiplying the billing demand by the kWh/kW factor. Example: if demand is 50 kW, and kWh/kW is 200, then the first energy block is 50 kW * 200 kWh/kW = 10,000 kWh.
Secondary Service	Electric power provided to a member at a voltage level normally suitable for direct connection to a member's equipment (IE, 120/240 volts, 120/208 volts, or 277/480 volts).
Primary Service	Electric power provided to a member at a higher voltage level (IE, 7,200/12,470 volts) which requires stepping down to a lower voltage before it can be used.

Section II

Abbreviations & Definitions

Page No. 2

Rate Code	Computer code used for internal Connexus Energy use.
Revision	Revisions affecting the rate or tariff language will be given the next whole number (IE, 2). When a revision affects only the rate codes used for internal use, the revision will be incremented by tenths (IE, 2.1).
Residential	Service to a dwelling in which the electrical usage is primarily for lighting, cooking, appliances, and air-conditioning.
