EMBRACE ELECTRIC VEHICLES

FREE Wind Energy

When you participate in the TOD electric vehicle program, we'll upgrade the energy it uses to 100% wind power.

(Details on back.)

ELECTRIC VEHICLE TIME-OF-DAY (TOD) PROGRAM

Connexus Energy supports the growing electric vehicle (EV) market and wants to work with members who purchase an electric vehicle to make sure you get the most affordable rate to meet your charging needs.

Two categories of electric vehicles are eligible: plug-in electric vehicles (PEV) and plug-in hybrid electric vehicles (PHEV). Hybrid electric vehicles (i.e. Toyota Prius) do not qualify.

Hours of Rate Availability

Connexus Energy's time-of-day rate offers members the most hours of charging in a week, while still providing an electric rate at almost half-off the normal residential rate. The least expensive rate is available 50% of the time.

This option requires the installation of a separate sub-metered circuit. You can choose this rate for your whole house or for your electric vehicle only.

Time-of-Day Rate

Cost per kWh to charge an EV on Connexus Energy's Time-of-Day rate. Additional cost for taxes and the Power Cost Adjustment (PCA) applies.

Energy Charge		Time	Day	Month
Off-Peak Period* (50%)	7.3¢/kWh	8 p.m. - 8 a.m.	All Days	All Year
Intermediate Period* (38%)	10.8¢/kWh	8 a.m. - 4 p.m. 8 a.m. - 8 p.m.	M-F Sat/Sun	All Year All Year
Peak Period Winter* (8%)	34.5¢/kWh	4 p.m. - 8 p.m.	M-F	Oct. - May
Peak Period Summer* (4%)	45.5¢/kWh	4 p.m. - 8 p.m.	M-F	June - Sept.

*Percent of hours during year

There are no peak periods on weekends or the following holidays: New Years Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas Day.

\$500 Rebate Available

Install a Level 2 EV charger and get a \$500 rebate. Rebate forms available online at connexusenergy.com.

HOW TO SIGN-UP

1. Enroll in the program online at connexusenergy.com or call Member Services at 763.323.2650.
2. Contact Connexus Energy to schedule a date and time to pickup the required metering equipment.
3. Have a state electrical inspection completed within 30 days of metering equipment installation.
4. Contact Connexus Energy at 763.323.2650 for final inspection. TOD rates and wind energy enrollment will not apply until final inspection is complete.

Power your EV with 100% Wind Energy

We're taking a bold step – doing something no energy provider has ever done. Along with our power supplier, Great River Energy, we're powering your electric vehicle with 100% wind energy, for the lifetime of that vehicle, at no extra cost. You'll still have to pay for the energy you use, but you'll be able to do so knowing that when you go electric, you'll always be going green.

How do you know you'll be getting 100% wind energy?

Energy comes from all kinds of sources; wind, natural gas, coal, and so on. Once it hits the power grid, there's no way of telling where it came from. However, when renewable energy is added to the mix, a renewable energy credit (REC) is created that embodies all of the environmental benefits of that energy. When you enroll in the TOD rate, we'll dedicate wind energy RECs on your behalf, completely offsetting that energy used to power your electric vehicle. A certificate of wind energy will be mailed to you within 6-8 weeks after enrollment.

Charging Locations

In addition to the charging stations located at Connexus Energy, PlugShare (www.plugshare.com) can help you locate a charging station wherever you go.
