

**Become a member of the Renewable Energy Club and ensure all of the energy your home uses is offset with a renewable energy source, like solar.**

**Annual membership includes:**

- Yard sign showing your support for renewable energy.
- Certificate (issued in February of each year) documenting the renewable energy credits being retired in your name.

**An annual membership is an easy and affordable way for our members to support an environmentally friendly energy alternative. There are many benefits to becoming a member:**

- You avoid costs associated with installing solar panels on your property, along with maintenance and repair.
- Renewable Energy Credits (REC's) are purchased & retired on your behalf. You'll get an annual certificate representing the retirement.
- *Locally produced from pollinator friendly solar projects in the communities we serve.*

**Join today**

**Annual membership is \$120.** All new 2023 enrollments will be pro-rated based on the enrollment month. Membership will automatically renew in January each year.
